CONVEYOR BELT HOOD

———— BULK MATERIAL HANDLING ————

CONVEYOR BELT HOOD

Conveyor belt hood is also known as a rainproof cover, dustproof cover. The conveyor belt hood is made of galvanized steel plate. Galvanized steel plate takes cold-rolled strips, galvanized steel strips as the base plate, after the surface pretreatment(chemical treatment), one or more layers of liquid paint are applied to the plate by roller coating, and then the plate made by baking and cooling. Conveyor belt hood can be divided into fixed type, open type, observation window type. Conveyor belt hood is widely used in energy, construction material, metallurgy, chemical, ports, mining, and other industries.

CONVEYOR BELT HOOD BASIC INFORMATION

Conveyor Belt Hood Type	Full Coverage, 3/4 Coverage, 1/2 Coverage, Full Coverage With Windows
Conveyor Belt Hood Size	Can be customized according to customer requirements
Conveyor Belt Hood Material	Galvanized sheet/Stainless steel
Conveyor Belt Hood Thickness	0.5mm/0.6mm/0.8mm/1.0mm
Conveyor Belt Hood Colour	Sea blue / Chinese red / Mechanical gray

WHY USE CONVEYOR BELT HOOD

CONVEYOR BELT HOOD FEATURES

Safety

Conveyor belt hood reduces the risk of work-related accidents by reducing traffic and access.

Sustainability

Highly effective passive airborne dust emission reduction solution, with no resource or energy consumption.

Environmental protection

Avoid material dust pollution environment

Reduction of material loss

Longer lasting components

Covered belt conveyors results in less wear on conveyor components as well as acting as a safeguard against UV, rain, snow, wind damage to the belt and machine.

Easy maintenance

Easy and safe of operation for realizing inspection, maintenance and repair work at conveying systems. Opening, latching and closing on both sides through one person without any tool.

CONVEYOR BELT HOOD FIXED FORM

Lock Fixed

Self-Drilling Screw Fixed
